

PATENT

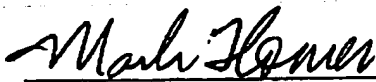

Navy Case No. 84,537  
Application No. 10/774,643REMARKS

Applicants have further amended claim 1 to address a clarity issue and the amendments to claim 2 remain the same as in the previous response in this case.

In the advisory action noted above, the examiner indicates that the second recitation of "a pulse descriptor word collector" in line 7 of claim 1 (the first line after the preamble) makes the claim unclear. Applicants have further amended claim 1 to remove this repetition to obviate any potential confusion. Applicants have left the remaining amendments the same as the last response in this matter, assuming that these obviate all other issues previously raised in this matter.

Accordingly, applicant believes that claims 1-12 are in condition for allowance and respectfully requests the examiner to withdraw all objections and rejections and allow said claims. Should the examiner need more information regarding this matter or have further suggestions regarding this application, feel free to call the undersigned at 401-832-6679.

Respectfully submitted,

Mark Homer, Reg. No. 41,848  
Attorney for Applicants
